# PROCRASTINATION.

PROUGANTINATION.

177 The sparit of this enemy to human health and happiness, has reduced many an indevidual to poverty, distress, anguish, and death, Like Felix, deferring an all-important point to "a more convenient season," many lose the opening opportanities of serving themselves and others. Procrastination in business matters, produces the same spirit in cases of health, and many a person adopts every excuse for the neglect of the one, and the omission of the other. In cases of incipient consumption, every article is obtained to afford speedy relief—bleeding and blistering are resorted to—and the patient is tortured by operal one and drugs. 'Why,' says a visitor, 'do you not try Pense's Horehound Candy!' The answer is—I will, if I am not better in a few days—I will consult my physician.' This is done, and he says, 'I abhor quack medicines.' The patient knowing its harmless effects, sends for a package, takes it unknown to the physician; recovers health and strength, and the doctor boasts of his mirraculous recovery, littly suspecting that it was done by one package of Pease's Horehound Candy, from 45 Division street.

Intellectual development and Personal Beauty considered in connection with Dr. Felix Gourand's Depilatory

in connection with Dr. Felix Gourand's Depilatory POWDERS.

THE Scalptor, whose study is to imitate the exquisite workmanship of nature, portrays in his model of the human form, a broad and elevated forchead. This developement is not oxly consonant with, but sometimes necessary to the possession of a high order of sential faculty. If a fine forelead is a mark of intellect, it is no less an essential element of personal beauty; and it is of importance to those, and there are many such, possessed of this prominent feature, though obscured by the carconclinents of a too luxurious growth of hair, to remove that portion of an excressince which tends, in their case, only to deform. This can be done safely, speedily, effectually, and if used in accordance with directions, without the least inconvenience, by Dr. Felix Gourand's Depilatory Powders. The furze of the lip, when annoying, or the short hair on the back of a holy's zeck, when too apparent—the hair of a mole, or the beard, when high upon the check, may all be removed, and eventually the roots destroyed, by the use of this preparation.
